WARNING

FALL HAZARD – To prevent death or serious injury, always keep child within arm's reach. Always secure this pad to the changing surface by correctly using fastening strap. See instructions. Changing surface must be level, stable and structurally sound with a minimum surface dimensions of 16 in x 32 in.

Do not use changing pad if it is damaged or broken.

Recommended maximum weight limit for use is up to 30 lb.

Adult assembly required.

Always use restraint system when using this product.

This pad is for use on a level, stable and structurally sound flat surface with a minimum dimension of 16 in. x 32 in. Use of this pad on a smaller surface could result in death of serious injury to your child from falling. Follow all instructions on attaching and using the fastening strap.

Attach the Changing Pad to the changing surface by using the following instructions:

1. Place Changing Pad on top of table or dresser with the fastening strap to the back of the changing surface ensuring it does not hang over any edge. Make sure the back of the table or dresser is clean and dry.
2. With the Changing Pad in position, attach the fastening strap to the back of the table or dresser by peeling the backing from hook portion of attaching system and press firmly to the back of the table or dresser.
3. Periodically check the fastening strap to ensure it remains tight and securely attached to table or dresser.
4. To remove the pad from table or dresser, pull the hook and loop fastener apart. When replacing the pad, fasten the hook and loop together and press firmly.

How to properly use the restraint system:

Position the infant on his back and centered on the changing pad, bring the safety strap around from both sides of the pad so they align over his abdomen and buckle securely. The pinch guard should lie against the body. To tighten the safety strap around your child pull the loose end of the safety strap away from the buckle. To release the safety strap simply squeeze the buttons together on both sides of the buckle. Never leave child unattended when using your Changing Pad, even with all straps secured. Always keep one hand on the child to prevent falling.
